RUSHTON'S CREAM SIRUPS and pure, cool Sona WATER can be obtained nowhere else but under the Astor Bique and Broadway, corner Canal-st. Vanilla, Pincapple, Raspberry, Strawberry, Chocolate, Lemen and Orange Flowers.

BROOKLYN ITEMS.

THE CENSUS.-The Marshals of the Seventeenth Ward have finished their labors, and return the population of the Ward at 5,438. In 1850 the Ward contained a population of 1,900. The increase in the Ward appears to be larger than that of any other Ward in the City.

CONTRACT FOR REMOVING OFFAL.-The Hospital

Committee reported at the last meeting of the Common Council in favor of entering into contract with Wm. B. Reynolds to remove all offel, dead animals, &c., from the City. Mr. Reynolds proposed to do the work (6. 839,000 a year, and to contract for a period of five years. The subject elicited much discussion and was eventually postponed until the next meeting.

PROPERTY OF THE CONSOLIDATED CITY.—The Committee on Assets and Liabilities of the Cities of Brooklyn and Williamsburg and town of Bushwick on the 1st of January, 1855, report the following as the financial conduion of the three places (now consolidated) at the above date:

Amount of assets of Brecklyn \$057,902 75
Debts 739,319 01 Surplus over debts......#118,553 74

The Know Nothings in New-Jersey.—We are informed that at the general meeting of the American Councils in this city, on Saturday evening, when the question was taken upon the rejection or adoption of the 18th article of the Philadelphia Platform, there were but three persons who voted in its favor. Two of the American Councils in Trenton have recommended to the New-Jersey State Council the appointment of delegates to the Cincinnati Convention, to be held on the 8th of January. At this Convention, it will be remembered, those who are in favor of the Pennsylvania Platform will meet, and if they are strong enough to put that platform through the National Council, and secure the nomination of candidates favorable thereto by the whole Order, they will do so. If not, they will take such measures as may be necessary to sever entirely the connection of the Nortl ern Councils of the Order from those who passed the Pro-Slavery platform in the National Council at Philadelphia. At present this course appears decidedly the most expedient; and although not entitled to speak by authority, we venture to suggest that the Councils here follow the lead of those of Trenton. The course proposed offers to the South an opportanity so retract the false principles which it interpolated in the American platform, and should this not be done, the North will be organized and prepared for the alternative of separate action.

[Newark Dally Mercury.] THE KNOW NOTHINGS IN NEW-JERSEY .- We are

The wonderful flower exhibited at the last meeting of the New-Jersey Natural History Society is known as the Jerusalem Rose. A correspondent of The Philadelphia Ledger says: "It is found floating on the 'waters of the Nile. I have seen a specimen one hundred years old, which, when placed in Western "water 100 degrees, opens its leaves as stated, and again closes them on being removed. It has no beauty of cotor, being of a dull-brown tinge—in size that of a dahlia. The Rose of Sharon is another "flower altogether." flower altogether.'

SALE OF LANDS FOR TAXES, -In Newark the sales SALE OF LIAMS FOR TAXES,—In Newark the sales of real estate on which the taxes for 1854 are not paid will take place at the Court-House on Monday and Tuesday next at 10 A. M. Those in the South, Fourth, Fifth and Sixth Wards will be sold on Monday, and the First, Second, Seventh and Eighth on Tuesday.

ELOPEMENT AND ARREST OF THE PARTIES.—Two Germans named J. W. Schmidt and Henrietta Prenze, boarding in this city, were arrested on Saturday by Officer Post, as fugitives from justice in Chicago, Ill., charged with adultery and grand larceny. An affidavit of the husband, named Ludwig Prenze, stated that on the 4th of June his wife Henrietta left his house during his absence, on the pretence of being absent but a few hours, taking with her \$2,000 in gold; that she came to this city with one J. W. Schmidt, and is now living with him here; that prior to her departure she removed the furniture to her sister's, whence it was sent to Schmidt in this city; the whole value of the property taken was \$3,000. Henry S. Munroe, as agent for Prenze, pursued them to this city and had them arrested and committed by Justice Haines to await a requisition from the Governor of Illinois. \$1,450 of the money and a large portion of the goods were found stored in the New-Jersey Railroad Company's freight depot. Schmidt is a resident of Hoboken, and says he came from Chicago home about six weeks ago, and three weeks afterward she followed him to Hoboken, whence they came to this city.

Pickfocket Arrested.—Yesterday morning, in ELOPEMENT AND ARREST OF THE PARTIES .- TWO

PICKFOCKET ARRESTED .- Yesterday morning, in PICKPOCKET ARRESTED.—Yesterday morning, in Jersey City, a man who gave his name as George Williams, was caught in the act of picking the pocket of John C. Plante, of Hyde Park, Luzerne Co., Pa., in the depot of the New-York and Erie Railroad. He had abstracted a pocket book which contained no money. Officer Fairbanks took him into custody, and conducted him before Recorder Cutter, who committed him to jail for trial at the next ferm of Court.

LAW INTELLIGENCE.

UNITED STATES DISTRICT COURT—JULY 17.—Before Judge Hall.

LOST INDICTMENTS.

The District-Attorney called on the trial of a young man charged with larceny at sea, and said to have been indicted by the late Grand Jury of the United States Circuit Court, but the indictment, with four or five others, was stolen from the office of the Clerk of the Court. The counsel for prisoner objected to the trial proceeding as the indictment, if ever found at all, being lest, the case is quashed. The District-Attorney contended that on his giving proofs by drafts of the indictments, and otherwise, that they had been presented, they are valid. Argument is to be heard.

CASE OF EDWARD BROWN.

The defendant was found guilty of counterfeiting and motion made for new trial. Motion denied.

MARINE COURT-JULY 17-Before Judge McCARTSY.

MARINE COURT—JULY 12—Before Jodge McCartey.

SULT AGAINST THE CORPORATION.
William Byron, sestence of Addison Alger, agt the Corporation of New York.

Suit to recover about \$400. It is said that Mr. Alger was employed to excavate for cellers in Broadway near Grand-st. Contiguous to them was a lot the title to which is in the Corporation, but occupied by the Board of Education for their carpenter-shop, where tables, benches and other school furniture is made, and which fronts on Croeby-st. Alger notified those in charge to shove up their building and also to take care of the sand, which latter they omitted to do, and the sand fell. He says that the agents or persons employed by the Board of Education told him to go on and remove it, and he did so to the extent of some 300 loads, which required, on the part of his men, about 84 days work jointly, and claim is made against the Corporation to recover therefor the above sum.

jointly, and claim is made against the Corporation to recover therefor the above sum.

In defense it is alleged that the Corporation is not liable, and that if there is any liability, it is in the Board of Education—that although the title of the property nominally is in the Corporation, yet it belongs is part to the Board of Education, and that the Corporation has no control over it—besides which the law of 1873 requires that all work done for the Board of Education shall be by contract, which was not the case here, and that plaintiff cannot maintain the suit. The Court coincided in the view, and dismissed the complaint. For plaintiff Mr. F. Byrne; for defendant Mr. N. R. Lawrence and the Corporation Counsel.

ASSAULT AND BATTERY, &C., AT SEA.

Mr. N. R. Lawrence and the Corporation Conusel.

Assault and Battery, &C., At Sta.

John B. Clarksg. Charles Mernhew and David Nearing.

By a semman of the ship Roseins agt, the captain and mate for assault and battery and alleged wrongful treatment, during the late voyage to Liverpool. The allegation is that the mate, without any cause whatever, struck plaintiff, and that he went to the captain and told him that the mate had struck him without cause, when Capt. M. cailed him a son a b—, and told him to go forward or he would strike him for some cause. On another occasion the mate pulled the man by the hair of the head away from some work he was doing, while at the same time he was properly per-

ent; there was counter testimony denving the alleged ill treatment, and the Commissioner, after hearing said testimony, dismissed the complaint.]

The present case was summed up by the respective

counsel and the Court gave judgment in favor of the plaintiff against the captain for \$50 and against the mate for \$150. For plaintiff, Mr. Noble; for defendant. Mr. Vultee.

SUIT FOR ASSAULT AND BATTERY AGAINST THE DR.

SUIT FOR ASSAULT AND BATTERY AGAINST THE DR.
McMahan sg. Hunter.
By the steward of the Roscius to recover damages against Dr. H. (witness above) for assault and battery.
The Dr., it was said, one evening at sea, entered one of the rooms where the steward was, and asked the Steward to let him have the lamp the steward had. The latter replied that he could not, as it belonged to the cabin, but he could have another. The Dr. then threatened the steward and struck him twice in the face, blacking one of his eyes. Judgment for plaintiff, \$75. For plaintiff, Mr. Vultee; for defendant, Mr. Noble.

MARRIED.

MARRIED.

BUTLER-BEARDSLEY-AI St. Albans, Vt., on Tuesday, July 3, by the Rev. Clas. Fay, Mr. Cyku's Butler of New-York, to Miss Marios W., daughter of the Hon. H. R. Heardsley of the former place.

BURRELL-HELMES-AI East Weymouth, on Tuesday, July 10, by the Rev. Mr. Fotter, Mr. David B. Burrell to Miss Charlotte W. Holmes.

Gambell-Andresca-On Tuesday, July 17, at St. Thomas's Church, by the Rev. Richard Cox. Wright C. Gambell and Elierbeth Brimmer Ardenson, all of this city.

Haskell-Poole-Ai Rockport, on Wednerday, July 4, Andrew J. Heskell, Esq., of Medford, to Caroline Poole of the former place.

e former place. cu-Ring-At Boston, on Friday, July 13, by the Rev. Mr. lots, Jonathan Hatch, Jr., to Miss Maria L. Ring, both of Boston.

Haw-Du Bots-On Tuesday, July 10, at the Church of the Transferration, by the Roy, Jacob M. Diller of Brookivn, WILLIAM E. HAWS to EMMA C., daughter of the late William D. Boils, both of this six.

liam Du Bois, both of this city.

Serwein-Schwein-At Philadelphia, on Saturday, July 14, by
the Rev. W. J. Mann, Mr. Mayrias Joseph to Miss Eliza-BETH SCHWEER, both of that city.

ONTER-SHEFFIELD-AL New Haven, on Monday, July 16, by
the Rev. Henry Croswell, Prof. John A. Poster of Yale
College, to Josephine, daughter of Jos. E. Sheffield of New-Haven.

BARKER—On Tuesday, July 17, Sarah E. Barker, daughter of the late Griffin Barker, in the 21st year of her age.

The friends of the family are respectfully invited to attend her functal on Thursday, July 19, at 10 a. M., from the residence of her grandfather, Wulltam Barker, White Frains.

Closs—On Tuesday morning, July 17, Joseph B. Closs, Ja., aged 20 years.

The relatives and friends of his father, J. B. Closs, are respectfully invited to attend the finneral at the residence of his grandfather, James Kelso No. 12 Suffolk at, on Wednesday, the 18th, at 3 o'clock F. M. His remains will be taken to Greenwood Cemetery.

Greenwood Cemetery.

Greenwood Cemetery.

Hatt-At New Bestord, on Monday, July 9, Mrs. Mary D.,
wife of Alvin E. Hall, aged 33 years.

JANSES—On Theeday, July 17, of consumption, ELIEARETH
JANSES, wife of John Javasen and daughter of the late Jacob

JANGES--OR Toesday, July 17, of consumption, ELIRABETH JANGE, wife of John Javann and designed of the late Jacob Maliliner, aged 27 years and 8 months.

The relatives and friends of the family are respectfully invited to attend her funeral on Thursday next, the 19th inst., at 3 o'clock P. M., from her late residence at New-Rochelle, without further invitation.

Lawrence- At Surington, Mass., on Wednesday, June 20, Edie Lawrence, aged 14.

Morse- At Charlestown, on Monday, July 2, Charles H., son of John and Caroline Morse.

Randell.—At Abington, on Saturday, July 14, Widow Rachell Handall, formerly of West Roubery, aged 66 years.

Raynond-At Charlestown, on Sunday, July 3, Mrs. Mary Loring, wife of Samuel Raymond, aged 68 years.

Saty-at Finshing, Long Island, on Monday, July 18, at 7 P. M., Euster French, wife of Wm. H. Sait, and daughter of Earl Lewis.

The relatives and friends of the family are invited to attend her funeral from her late residence, on Wednesday, 18th, at 3 P. M., without further invitation. Carriages will be in attendance at Finshing on the arrival of the 1 o'clock train.

Scofford—At Roubing on Friday, July 3, Sanar H. Sporford, aged 39 years, late Teacher in one of the Public Schools.

Savace-At Charlestown, on Friday, July 13, Mrs. Maria, wife of Theodore Savage, aged 36 years.

Sticked, At Northampton, on Saturday, July 10, Mr. Joseph H. Sticked, aged II years and 8 months.

Stroke-At Northampton, on Saturday, July 20, Mr. Joseph H. Sticked, aged II years and 8 months.

WIRMAR-On Wednesday, July 11, Walter Wirmar, at Bycronest, Brooklys, and & years.
The remains were interred in the Cemetery of the Evergreens, Whitlock-At Boston, on Friday, July 13, Mr. Caroline F., while of Abel Wiselock, aged if years.
Toek-At South Boston, on Friday, July 13, of communition, Dr. John Coley York, aged 25 years and 2 months.

TUESDAY, July 17-P. M. The dullness of the Stock market continues with the naturally resulting weakness of prices. The attendance at the Board is light, and outside orders are infrequent. Operators are more disposed to close up their speculations than to engage in new ones. The Brokers complain that business is duller than at any time in two or three years, but this is exaggeration. The market is quiet and consequently heavy, but Wall-st. has seen much duller days than to-day. There is no pressure of stock on the market, which under the scarcity of purchasers alone prevents a more considerable decline. At and after the Second Board there was more firmness, and quotations at the close were fully sustained. Erie left off at 51]. The sales of the day were over five thousand shares, making this the most active stock on the list. It is stated that the Company has during the past six months paid off \$390,000 of floating and funded debt, including the contributions to the Sinking Fund of the 1875 Bonds. This is about equal to a 4 per cent. dividend on the stock. Reading was 941 bid. A 4 P cent dividend, it was supposed, would be publiely as nounced in Philadelphia to-day. Hudson River and Harlem were dull; Cleveland & Toledo under large sales fell off to 881; Michigan Southern closed at 1041 bid; Michigan Central, 95 &c.; New-York Central was firm at about 1011 01011; Cumherland went to 282, but closed at 29; Nicaragua was 174. We hear from one quarter that negotiations are going on favorably with the Steamship Company, and from another well informed authority that an amicable arrangement was never more unlikely. In Railroad Bonds the business was moderate, and prices are weak without change of importance. There were not many State Stocks pressing on the market to-day, and the market was about as yesterday. Missouris, 954; Californias, 86; North Carolinas, 98; Louisianas, 95, buyer sixty, &c. A sale of 2,000 United State Sixes, 1868,

was made at 1201-taken for banking purposes. The market closed dull for Exchange for the steamer. Leading Sterling was 9; @10 P cent, with good commercial bills at 94 @94; Francs, 515 @ 5124.

The demand was moderate.

Engagements to Liverpool include 15,000 bushels Corn at 21 23d. in bulk, 1,000 bales Cotton at 3-16@ -32d. Bark Ophir, 440 tons, 4 years old, built at Bath, has been sold for the New-Orleans trade to E. H. Fosdick, on private terms. A brig was chartered

The steamer from Boston took about \$700,000 in specie from New-York. Of this Mr. Belmont shipped \$420,000, and Dennistoun, Wood & Co. \$200,000

The receipts of the Sixth Avenue Road from February 1 to the 1st of July were \$86,050 49, against \$96,089 84 for the corresponding five months last year, showing an average decrease of about \$66 per day,

and the present month thus far is about the same ratio. The receipts of the Erie Railroad for

The business of the past six months has been 1855.

This Company has just passed a resolution to con coldate all their Bonds under a first mortgage and catablish a sinking fund of one per cent for their reimbursement before maturity. The plan is precisely like that adopted by the Southern Michigan Company. The sinking fund feature in railroad bonds is become ing very general and should be universal.

The statement in one of the City journals, copied from a Utica paper, that the coupons on the Bonds of the Ogdensburg, Clayton and Rome Railroad are not

of Mr. Wright for the steamer gives the annexed sta-

The week's receipts at the ports amount to 35,000 hales a salest 11,000 last year, the total deficit being reduced to 119,000 bates. Next week we compare with 17,000 bates, and the decrease therefore will be but slightly altered. The expart to Great Britain for the week has been 25,000 bates around 17,000 last server, the total decrease being mos 37,000 bates. To France neithing has been amputed the week, and as she received from the time to the send of the season last year, an average of 10,000 bates per week the present increase of 29,500 bates will rapidly decline. The deficit in stock at all the ports compared with tax year, is 155,600 bates.

the first organization under the new Indiana Law, which compels a deposit of 110 cents 6 & cent State Stocks and real estate pledges of 25 cents for each dellar of circulation, thus affording \$135 security for \$100 issue D. S. Barnes, No. 63 Liberty-st., is Agent in New-York. The Brooklyn Fire Insurance Company have de-

clared a dividend of 6 & cent, payable 1st of August. The Rutger Five Insurance Company have declared a dividend of 5 P cent, payable 1st of August.

The Trustees of the Bank of the United States will make their final dividend on the 28th September, when the concern will cease in any shape to exist. It has taken fourteen years to wind up the concern. The as sets realized are insufficient to pay the creditors of the bank, so that the loss to the stockholders will be total.

The Oneida Central Bank of Rome has declared a

semi-annual dividend of six per cent payable 1st of August. The City Fire Insurance Company of Hartford a dividend of seven dollars on a share.

The earnings of the Cleveland and Pittsburgh Road thus far in July are fully equal to those of June during the same period. The lands of the Dauphin and Susquehanna Coal

Company, in the counties of Daupain, Schuvikill and Lebannon, Pennsylvania, are advertised to be sold by the Trustees under the mortgage. The 13th day of September is the day fixed for the sale, including 10,000 acres of coal lands and extensive mines. Negotiations are however going on which it is hoped will prevent this sale.

Messrs. Clark, Dodge & Co. offer for sale \$50,000 of the Bonds of Johnson County, State of Iowa, and \$25,000 of the Bonds of the City of Burlington, Iowa, issued for City purposes. See advertisement.

The Lake Eric, Wabash and St. Louis Railroad Company have just negotiated with a party of New-York capitalists \$600,000 of their Second Mortgage Bonds, being the residue of the issue. It is understood that this sale will furnish sufficient money to complete the road to the State line. That portion of the road from Toledo to Fort Wayne, 75 miles, opens for business to-morrow. It will have a good local business until the Southern connections are made and will add considerably to the business of the Cleveland and Toledo Road, with which it connects at Toledo.

There is a fair business doing in Land Warrants. Thompson's Reporter quotes the market \$1 09 @ \$1 124 P acre. The demand is about equal to the supply.

Mr. C. T. Pierson, President of the Breckenridge Coal Company, has recently returned from the mines, and has made a report to the Company. Another parcel of 500 tuns of this coal is on the sea between New-Orleans and this port, and another lot of about 800 tups is going on shipboard. We make the following extracts from the report of the President:

ing extracts from the report of the President:

"In March last I proceeded to Cloverport to take charge of the Company's works. On my arrival I found from the severity of the Winter, together with other causes incidental to new works of this nature, that our works were not as perfect as they otherwise would have been. I gave my attention at once to putting the road in order and making the necessary connections, and completing everything already begun. The railroad now connects with eight openings to the mines, and is in good order throughout. The plane extending from the top of the river bank to low water mark is finished in the most complete and substantial manner. The steam sawmill is in excellent running order, and has turned out about two million feet of sawed lumber, all of which has been used about the Company's works, for the railroad, and in erecting dwellings, shops, harns, building cars, &c. The Company commenced mining coal by the tan under contract with an experienced miner about the first of May lest, and are now mining at the rate of 110 to 120 turs per day. The contract with the miner calls for not less than one hundred tuns per day during the remainder of this year, and not less than 300 tuns per day per day. The contract with the miner calls for not less than one hundred tuns per day during the remainder of this year, and not less than 300 tuns per day during the year 1856, and not less than 350 tuns per day during the year 1857, and to increase the amount indefinitely when required by the Company. Previous to commencing this contract the Company had mined, in making openings, from six to eight thousand tutes, and are now running and marketing something over one hundred tuns per day, which sells at the river at \$4 50 to \$5 per tun; but the principal demand is from New-Orleans, where the Company readily obtains seven dollars a tun for all they can send down the river. The coal costs the Company delivered on the Obio Kiver about \$1 80 to \$1 85 per tun. Since my return to New-York I have, under the advice of the Directors, closed a contract for 15,000 tuns per annum for seven successive years, for the distillation of oils, paraffine, &c., and which is to be used for no other purpose. In relation to the quality of our coal I am parafine, &c., and which is to be used for no other purpose. In relation to the quality of our coal I am more than ever convinced of its superiority, and I believe that its equal or anything approaching it in richness, particularly for oil producing qualities, has not yet been found in the United States. It is the belief of these who have thoroughly investigated and experimented upon it that within a few years our entire sales will be to oil producing manufactories. Up to the present time the coal has been taken from our works in flat boars, but I have contracted for sixteen barges of 480 tuns capacity each, some of which will soon be at our works ready for loading, and the remainder will be ready by the first of November next. The financial condition of the Company is such that the stockholders may well be proud of, having finished our works and prosecuted our mining and paid for our entire property, rolling stock and every appendage included, without borrowing or issuing any specie of indebtedness. I find in the Treasury \$19,702 68."

The City Councils of Erie have passed resolutions

The City Councils of Erie have passed resolutions offering to subscribe \$200,000 to the stock of the Pittsburgh and Eric Railroad on condition that it be really

built from Pittsburgh to Erie.

The sale of \$239,000 of State Bonds, running ten years, is advertised by the Treasurer of North Caroline, viz: \$90,000 dated Jan. 1, 1855, running thirty years; \$15,000 dated July 1, 1855, running thirty years; \$5,000 dated July 1, 1855, running twenty years, and \$129,000, dated July 1, 1855.

The notes of the Commercial Bank of Alleghany, New-Yerk, must be presented at the Sank Department for payment within two years from July 16th. At Boston there is a continued animation in the

Copper shares, and prices are on the improving scale. On Monday Toltec went up 1; Copper Falls 21; Isle Royale in request at 134; Pitteburgh at 150. A number of gentlemen interested in mining operations, have in t returned from a six weeks' visit to the Lake Sonerior districts, convinced of the immense mineral wealth of that portion of the country, and of the future vast amount of treasure to be developed by the enterprise, capital and skill of this city. The difficulties between the Vermont Central and

the Vermont and Canada Railroads, seem to be nearer to some adjustment. Mesers. Hopkinson, Storrow and Smalley, are appointed referees to decide upon the

lastic Bank at Jackton, Orange Bank, Bank of Albany, State Stock Bank of Indiana at Peru, Bank of Bridgeport, Bank of America at Morocco, and the Public Stock Bank at Newport, to return the same to the Auditor's Office, Indianapolis, for cancellation, before the first day of October next, that the outstanding circulation may be determined as accurately as possible, and a pro rata dividend thereon declared, Certificates for the amount returned will be issued, and the dividend on the respective banks paid upon the presentation of the certificate at that office after the first day of October next.

Gov. Pease of Texas and a candidate for reflection has published his views relative to the State debt. He advocates the acceptance by the State of the Act of

advocates the acceptance by the State of the Act of Congress as a final settlement of the matter. He says:

"The par value of the debt, with interest up to July, 1850, when the interest was stopped by a law of Fexas, was \$10,029,307 60. The amount of dobt acknowledged by Texas at the graduated rate which she adopted on the same day was \$4,436,839 18. The new bill, therefore, would pay the Texas creditors about 774 ceats on the dollar of the amount of their claims, allowing them the benefit of the interest for the time the United States Bonds draw interest. If the Texas law were to prevail in the payment, the difference in favor of Texas would be about \$400,000. This will be increased by the consideration that some of the creditors of Texas would receive less by the Act of Congress than they would under the Texas law; and the Governor thicks it a point of honer for the State to make this good. This amount is a little over \$100,000; so that the concession of Texas for the final adjustment of the affairs will be a little over \$500,000; that is, that the sum paid for and to her will be less by that amount than what she expected to receive, and has hitherto insisted upon receiving, but which there has been no chance at any time that Congress would give her."

The New-Orleans Weekly Bank statement shows a The New-Orleans Weekly Bank statement shows a

lecrease in all items except distant balances or rather collection account, in which there is an increase of \$106,556; the other items exhibit a decrease as follows: In specie of \$175,558; in circulation of \$42,907; in deposits of \$481,686; in short loans of \$270,806; in exchange of \$177,595. The decrease in long and short loans for the week is 103,723. The ine of deposits is now lower than at any time since last September.

Markets.. CAREFULLY REPORTED FOR THE TRIBUNE.

TUESDAY, July 17, 1838.

ASHES—The market is quite steady; sales of 30 bals, at \$6 50 or Pets, and \$6 62\$ for Pearls.

BRICKS—The market is quiet at \$3 75@\$4 for hard North liver. BEESWAX-The market has not been inactive; sales of 200 27+ 0 20c. OAL—The market is quiet for foreign; hard is inactive at

the latter price for Plane, 150 has a law at law, a law, a

boxes Sicily Oranges at 14 (#18), and 2,900 boxes do. Lemons at 1 (#18).

GRAIN—A feir demand for prime new Wheat at former, prices; common is lower and slower of sale. Much of that efferred is poor. Uld is not to freely offered; sales of 3,000 red Jersey at \$2.20 and 250 bush, which Michigan at \$2.50, lower and Jersey at \$2.20, and 250 bush, which Michigan at \$2.50. Ryel is beary; sales of 3,000 ted. at \$1.40—an extreme price. Osts are lower, and are dull at \$60.603c, for State and Western. Corn opened firmer with moderate arrivals, but with large arrivals in prospect closed tame; sales of 65,000 bush at 90.201c, for Western mixed, 97.80 for Southern and Northern yellow. Included in the sales are 15.000 bushes to 10.201c, for Western mixed, 97.80 for Southern and Northern yellow. Included in the sales are 15.000 bushes to 7 last part of August 219c.

HOPS—The market is very quiet, and prices bave a downward tendency; the private advices from London are not encourasing; 35 bases were sold to this market to-day at 21c., and seme 3 bales at from 22.202 cents.

HAY—A moderate shipping demand, but with light receipts;

one 9 bales at from 27.2 25 cents.

HAY—A moderate shipping demand, but with light receipts; rices are firm; sales of 200 bales at \$1.00%. New is more

HAY—A moderate shipping demand but with light receipts; prices are firm; sales of 200 bales at \$1.00;. New is more prices; after the prices; also have been more active to-day at rather better prices; sales have been made of 5,000 Augustura at 19;c., which is an improvement of its on last sales; 1,000 Buenos Ayres at 23c. The total stock is estimated at 125,000.

IRON—Holders of Sooth Pig are very firm; the demand is fair; sales of 25c tuns at \$30.253, fonce, and small lots at \$31.50.

INDIGO is dull; prices of Manilla range from 40,0002. We hear of sales of 9 ceroons Caracas at 73,075c.

LATHS—There is not any variation in this market; 1,000,000 have been sold at \$1.50.25 thousand.

LIME—The market is very quiet; sales of common Rockland at 80c. and Lump at \$1.15.

LUMBER—There is not much inquiry; sales of four cargoes Spruces and Pine at \$12.50,2413.

LEATHER—The market continues quiet; the high prices saked check the inquiry. The receipts are light. Prices rule firm. Oak is firm and moderately inquired after. French Calfestins are firm and in fay demand. The stock is light. Prices are solitows: \$2,000 to 10,000 to 1

Catter, 56 cate in, 75 meter, 50 ca70 in, 100 at 0., 10 cas in, 0.5 ca 0. English salied Sheepskins are unchanged.
